The Librarian of Congress Presents Fiscal 1986 Budget Request

Librarian of Congress Daniel J. Boorstin and other Library officials appeared before the House Subcommittee on Legislative Branch Appropriations on February 27 to present the Library's fiscal 1986 budget request, for $253,129,000, a 5.7 percent increase over the previous year. In addition to maintaining ongoing programs, Dr. Boorstin stressed that programs for automation and acquisitions in South Asia require special attention this year.

"Our current Serial Record File has become too large and consequently, unmanageable," he said, noting that the Library receives some two million serial items annually, representing more than 150,000 titles of periodical publications. "We are requesting funds and positions to develop and maintain an automated serials management system." The proposed system is intended to "consolidate management and control data in one file accessible to all Library users." In addition, the Library requested funds to lease or purchase 496 additional ADP workstations and 51 microcomputer stations. Three hundred of these stations would be used substantially to complete the automation of book cataloging, with the balance located throughout the Library, he said.

The other area requiring special attention in this year's budget is the need to find replacement funding for acquisitions in India, a program "vital to our nation's understanding of a vast area of the world which includes one-fifth of the global population," the Librarian said. "Last year we were informed by the U.S. Department of State that excess currencies in India would no longer be available," he said. "Because of the critical importance of the materials we acquire through this program from India, Bangladesh, Nepal, Sri Lanka,

Marvin W. McFarland Dies
Was Former Chief of Science and Technology

Marvin Wilks McFarland, 65, retired chief of the Library's Science and Technology Division, died of a heart ailment on February 25 in Silver Spring, Md. Mr. McFarland came to the Library in 1948 as an aeronautical historian, following his roles during the

Second World War as chief archivist with the U.S. Strategic Air Forces and staff archivist to the commander of the U.S. Army Air Forces.

He served in the Library's Aeronautics Division for a time as its acting chief. Following reorganizations, in which that division became the Aeronautics Section in the Science Division, and later the Science and Technology Division, he was named assistant chief in 1963 and chief in 1966.

Mr. McFarland was a noted authority on the Wright brothers, editing the *Papers of Wilbur and Orville Wright,* (McGraw Hill, 1953, reprinted by Arno Press, 1972), *The American Heritage History of Flight* (American Heritage Publishing Co., 1962), *The Wright Brothers: Heirs of Prometheus* (National Air and Space Museum, Smithsonian Institution, 1978), and was the technical consultant for the 1978 NBC documentary, "The Winds of Kitty Hawk."

Mr. McFarland was born in Philadelphia, where he attended Girard College. He earned a bachelor of arts degree from Franklin and Marshall College and pursued graduate studies at McGill and Georgetown Universities. He was called to active duty in the U.S. Army Air Corps in 1942 while he was an assistant in the manuscripts department of the Historical Society of Pennsylvania. After his retirement from the Library in 1980, he became the curator of the Stephen Girard Collection in Philadelphia.

Mr. McFarland is survived by three sons, Ian of Takoma Park, and James and Robert, both of Silver Spring; two daughters, Pamela McFarland of Silver Spring and Elizabeth Woldman of Wheaton; and a brother, George of Canton, N.Y. Mr. McFarland's wife, Monica, predeceased him in 1983.

The family suggests that expressions of sympathy be in the form of contributions to Girard College.

Budget request *(Continued from p. 57)*

Thailand, Bhutan, and the Maldives, we are requesting that this program be funded with U.S. dollars." He added, "I cannot emphasize enough the importance of this information-gathering effort."

The Librarian explained that for over two decades the Library has had overseas acquisitions centers, several of which were funded through the use of excess foreign currency. The first and most important center has been in New Delhi, where materials have been acquired not only for the Library but also for more than 250 other U.S. libraries. Economies have also been realized through the use of local staff to catalog and preserve acquisitions.

In anticipation of the depletion of the U.S. account in Indian rupees, "we have scaled down the program to a bare minimum of one million dollars from its 1985 funding level of over two million," Dr. Boorstin said. In addition, "we have notified participating libraries to expect to begin paying acquisitions costs for materials they wish to receive."

In his budget request, the Librarian also included funding for nine additional staff for special collections divisions and three for area studies divisions, "to assist in processing and servicing their growing collections"; two positions to enable the Library to plan its participation in the 500th anniversary of the discovery of America by Christopher Columbus in 1992; funds for additional positions in the National Library Service for the Blind and Physically Handicapped, "to meet increasing consumer need"; and funding to aid in processing additional claims resulting from the new law for the protection of semiconductor chips.

The *Library of Congress Information Bulletin* is issued weekly by the Library of Congress and distributed free of charge to publicly supported libraries and research institutions, academic libraries, learned societies, and allied organizations in the United States.

Comparable institutions and organizations in other countries may arrange to receive the *Bulletin* on the exchange basis by applying in writing to the Library's Exchange and Gift Division. All other correspondence should be addressed to the LC *Information Bulletin,* Information Office, Library of Congress, Washington, D.C. 20540.

STAFF NEWS

Alice Rohrback, Former Braille Specialist with NLS/BPH, Dies

Alice Rohrback, who worked as a braille specialist with the National Library Service for the Blind and Physically Handicapped from 1938 until her retirement in 1963, died on February 3, in Braddock Heights, Md., at the age of 84. She headed the Library's unit of braille specialists for a number of years and also coauthored a book on braille transcribing.

Miss Rohrback, who was blinded as an infant, graduated from Hood College and taught at the Perkins Institute in Boston before joining the Library of Congress staff. She was awarded an honorary doctorate of humane letters by Hood College in 1955.

Director of the Automated Systems Office, Fred E. Croxton, Retires

Fred E. Croxton, director of the Automated Systems Office, retired on January 3 after 25 years of Federal service. Mr. Croxton joined the Library of Congress staff in 1970 as director of the Administrative Department, which then included the automation, preservation, and photoduplication programs as well as those related to general administration and support, such as personnel, finance, facilities, procurement, reproduction, security, and police. In 1976, he was named director of the newly established Reader Services Department that incorporated the Division for the Blind and Physically Handicapped, the Federal Research, General Reference and Bibliography, Loan, Science and Technology, Serial, and the Stack and Reader Divisions. With the reorganization of the Library of Congress in 1978, Mr. Croxton was appointed to his present position.

Born in Columbus, Ohio, Mr. Croxton received a bachelor of arts degree in chemistry from Oberlin College in 1944 and a master's degree in library science, with honors, from the Columbia University school of Library Service in 1960.

Mr. Croxton began his career at The Kellex Corporation as an architect engineer for the first gaseous diffusion separation plan, built under the management of the Manhattan District U.S. Army Corps of Engineers (later the Atomic Energy Commission). After returning from military service, he joined the Union Carbide Nuclear Corporation (K–25 Plant). He served successively as a senior chemist and technical assistant to the director of the Barrier Research Laboratory, as assistant to the director of research, and as a technical engineer with the Plant Records Department where he also functioned as advisor to the plant librarian.

In 1949, Mr. Croxton entered Government service as chief of the Bibliography Unit of the Technical Information service with the U.S. Atomic Energy Commission in Oak Ridge, Tenn. He served successively as acting chief of the Technical Service Section and as chief of the Special Projects and Cataloging branches. In 1953, he joined the newly formed Goodyear Atomic Corporation as superintendent of the Information and Records Subdivision. In 1962, he accepted the position

Shown at a coffee honoring Mr. Croxton are (seated, left to right) Donald C. Curran and Mr. Croxton; (standing, front row, left to right) Jim McClung, Morrigene Holcomb, Glen Zimmerman, Dale Mannarano, Wini Hayden, Carlotta Davis, Mary Ann Adams, Charlene Woody, Mary Ann Ferrarese, Vivian Crump, Art Lieb; (back row, left to right) Howard Blancheri, Jim Trew, Steve Bush, James S. Graber, Jim Stevens, and Bobby Dove.

Pictured with Mr. Croxton at his reception are (left to right) Mrs. Croxton; his daughter, Elizabeth Croxton; Patrick Murphy; Mr. Croxton's stepdaughters Amy and Karin; and William J. Welsh.

of director of the Redstone Scientific Information Center in Huntsville, Ala. In 1968, he became executive vice president and a member of the initial management team of the Technical Information Services Company (now the Informatics Information Service Company), contract operator of the NASA Scientific and Technical Information Facility in College Park, Md.

Mr. Croxton has published many bibliographies and technical papers and has held positions on the Federal Library Committee Task Force on Automation, the Department of Defense Technical Information Program Management Review Team, and the U.S. Atomic Energy Commission Technical Information Panel. He has also served on several steering committees for Army information programs, among them the Army Technical Library Improvement Study and the Army Chemical Information and Data System, the Library Panel of the Chemical Abstracts Advisory Board, and several groups planning the National Periodicals Center. He has served as chairman of Subcommittee 20 (Serials Identification) of the Z-39 Committee, of the American National Standards Institute, the Pike County Chapter of the American Red Cross, and the board of trustees of the Pike County Free Public Library. He is a member of the Special Libraries Association, the American Chemical Society, the American Association for the Advancement of Science, and the Association of the U.S. Army.

Mr. Croxton received a superior service award in November 1984.

He and his wife, Arlene, plan to enjoy their retirement in Mulberry, Fla., and in Ocean Pines, Md.

Melba D. Adams, Assistant Chief of Decimal Classification, Is Awarded 25-Year Pin

Melba D. Adams, the assistant chief of the Decimal Classification Division, was presented a 25-year Federal

Henriette Avram, Melba D. Adams, and Lucia Rather, director for Cataloging

service pin on December 17 by Henriette D. Avram, Assistant Librarian for Processing Services.

Mrs. Adams graduated from Bennett College with a bachelor of arts degree in English and dramatics and from North Carolina College in Durham with a bachelor's degree in library science before beginning her career as a librarian at Carver School in Mount Olive, N.C., as a teacher-librarian. Mrs. Adams later moved to Florida A&M University where she worked as a Government documents cataloger. She then worked for two years in Stuttgart and Kaiserslautern, West Germany, as a cataloger for the libraries in the Western Area Command of the Special Services Library with the U.S. Department of the Army. Upon returning to the United States, Mrs. Adams joined the staff of Fayetteville State Teachers College as a circulation and reference librarian.

In July 1960, Mrs. Adams joined the staff of the Library of Congress as a cataloger in the English Language Section of the Descriptive Cataloging Division. In August 1966, she transferred to the Decimal Classification Office as a classification specialist. She continued to serve in more responsible positions in that division until she was promoted to assistant chief in November 1978, the position that she currently holds.

During July and August 1972, Mrs. Adams spent six weeks at the British National Bibliography in London consulting in the use of the *Dewey Decimal Classification*

and observing and participating in the BNB's methods of subject analysis. She was the first participant in the reciprocal exchanges of personnel between the two agencies which were instituted to achieve closer coordination in the use of the Dewey system.

Frederick B. Mohr Is Awarded 25-Year Federal Service Pin

Frederick B. Mohr, chief editor in the Publishing Office, received a 25-year Federal Service Award pin on February 25 from Associate Librarian for National Programs Carol A. Nemeyer. Present at the ceremony were Deputy Librarian William J. Welsh and the staff members of the Publishing Office and the Office of the Associate Librarian for National Programs.

Mr. Mohr joined the Library's Processing Department in September 1960 as searcher in the Union List of Serials Project. In February 1961, he transferred to the Air Research Division, where he worked as a research analyst until September 1962, when he left the Library to accept an NDEA Fellowship for graduate study at Georgetown University.

In June 1963, Mr. Mohr returned to the Library of Congress as senior technical editor and publications coordinator in the Aerospace Technology Division. In October 1969, he went to work as technical staff specialist with the TRW Systems Group and as a freelance technical writer and editor. An announcement of an opening for a chief editor in the Publishing Office lured him back to the Library in April 1971, however, where he remains today.

Mr. Mohr received a bachelor of arts degree in English from Harvard University in 1955 and soon thereafter traveled to Germany as a tank gunner in the Third Armored Division. From 1960 to 1968, he studied theoretical and applied linguistics and Russian language and literature at Georgetown University where he earned a master of science degree in 1964. In 1980, he entered George Mason University where he obtained a master of arts degree in counseling psychology in May 1984.

In addition to his employment with the Library, Mr. Mohr now works part-time as a substance abuse counselor at the Mt. Vernon Community Mental Health Center.

William J. Welsh, Fred B. Mohr, and Carol A. Nemeyer

LCPA Special Interest Groups Plan April Meetings

The Special Interest Groups (SIGs) of the Library of Congress Professional Association have planned the following meetings for April. All meetings are strictly held to one-half hour, from 12:10 to 12:40 p.m., with the exception of the Foreign Area Studies SIG which meets from 11:30 a.m. to 12 noon, so that staff members may attend them on their lunch periods. The meetings are informal, and eating lunch during them is encouraged.

On Tuesday, April 2, the Special Interest Group on Ethnic Resources at the Library of Congress will meet in LM 403 (Copyright Office Conference Room). Robert Dunn of the Asian Division will speak on Chinese Americans.

Also on Tuesday, April 2, the Special Interest Group on Library Science will meet in LM 642 (Processing Services large Conference Room) to hear Michael H. Shelley, chief of the MARC Editorial Division, discuss "The Creation and Maintenance of MARC Records for LC Databases." Among the topics he will address are record creation by Library of Congress staff members, cooperative projects, private contractors, the PREMARC data base, and automated system support.

On Tuesday, April 9, the Special Interest Group on Foreign Area Studies will meet in LM 642 (Processing Services large Conference Room) from 11:30 a.m. to 12 noon. Moses Pinkston, a research analyst for Africa in the Federal Research Division, will discuss "South Africa and the Homeland Policy (Transkei)."

On Tuesday, April 23, the Special Interest Group for Managers will meet in LM 403 (Copyright Office Conference Room) to hear Robert G. Zich, director of the Office of Planning and Development, discuss "New Technologies and the Manager."

Also on Tuesday, April 23, the Special Interest Group on American Studies will meet in LM 642 (Processing Services large Conference Room). The topic will be announced at a later date.

On Wednesday, April 24, the Special Interest Group on the History of the Library of Congress will meet in LM 605 (National Programs Conference Room) for a discussion on "The Library of Congress and World War I."

The Special Interest Group on Special Collections in the Library of Congress will not meet in April.

Reminder to Retired Staff Members

The Library of Congress Professional Association wishes to remind retired Library of Congress staff members to join LCPA. A membership fee of $3 provides a year of the *LCPA Newsletter* and the *LCPA Broadside,* both providing a way of staying in touch with LCPA activities at the Library. To join LCPA, please send a check or money order for $3, payable to LCPA, addressed to Stephen Paul Davis, Network Development Office, Library of Congress, Washington, D.C. 20540.

Cooking Club Makes Special Donation

At its January meeting, the Library of Congress Cooking Club voted to make a special donation of $500 to the American Red Cross African Famine Relief Campaign. The club usually makes annual donations to food-related charities in the Washington, D.C., area, but the circumstances of the disaster in Ethiopia and other African countries made this special effort necessary. The Cooking Club has a list of 26 other groups which are accepting donations for famine relief in Africa. A copy of this list can be obtained from Arnie Bellefontaine, president of the Cooking Club, in LM 605.

Staff Activities

Doria Beachell, librarian in the FEDLINK Network Office, conducted an OCLC regional workshop at the U.S. Court of Appeals in San Francisco, Calif., on February 25–27. Her training sessions included lectures and hands-on practice with online searching, interlibrary loans, and MARC tagging. Those attending included Federal librarians from the National Maritime Museum, the Letterman Army Institute of Research, the David Grant USAF Medical Center, the Environmental Protection Agency, the U.S. Forest Service, the U.S. Army Corps of Engineers, the U.S. Department of Labor OSHA (Occupational Safety and Health Administration), and the U.S. Court of Appeals.

James N. Gentner, acting head of the Foreign Language Serials Cataloging Section in the Serial Record Division, presented "An Overview of Serials Cataloging" to a group of 30 Kenyan librarians in Nairobi, Kenya, on February 12. Librarians from the Kenya National Library Services, the University of Nairobi, Kenyatta University College, United Nations Environment Programme, United Nations Centre for Human Settlements (HABITAT), and others attended the three-hour session. In addition to Nairobi, Mr. Gentner's itinerary included Karachi and Cairo. In each city he trained and instructed Library of Congress field office staff members in serial cataloging procedures.

George E. Glos, assistant chief of the European Law Division, delivered a lecture on February 20 to students in the Department of Government at George Washington University. Mr. Glos spoke on the making, interpretation, performance, and termination of international agreements.

Carolyn Morrow and **Merrily Smith,** of the National Preservation Office, and **William Sittig,** of the Collections Development Office, were among the featured speakers at the 1985 spring conference of the Librarians' Association of the University of North Carolina at Chapel Hill. The conference's theme, "Preservation in the 80's," attracted an audience of approximately 100 librarians, primarily from academic institutions in North Carolina and adjacent states. Ms. Morrow discussed techniques and procedures used in the library preservation program; Ms. Smith described the Library's mass deacidification program; and Mr. Sittig spoke on the implications of preservation for collection development.

Personnel Changes

Appointments: Sean Barnett, librarian, GS–9, CMP, 40745; Susan Bau, librarian, GS–11, Ord, 40680; Teresa Green, clerk, GS–3, Cop Acq & Proc, 50058; Karen Hendrixson, technical information specialist, GS–9, CRS S, 40886; Richard Huang, computer programmer, GS–9, CDS, 40779; Philip Lalka, inventory management specialist, GS–7, P&S, 50001; James Miller, inventory management specialist, GS–11, NLS/BPH, 40788; Rochelle Morris, accounts clerk, GS–4, FMO, 40941; Anthony Morton, lithographic helper, XP–4, CS, 40859.

Temporary Appointments: Harry Haon, library aid, GS–3, Col Mgmt, G115B; Joyce Howland, editorial clerk, GS–5, CRS E, NP; Ivy Jenkins, library aid, GS–3, G115B.

Reappointment: Albert Kendall, library technician, GS–5, Sci, 40813.

Promotions: Robin Coreas, to library technician, GS–7, CRS ARS, 40950; Charles Jackson, to library technician, GS–7, CRS ARS, 40950; Patricia Markland, to program asssistant, AFC, NP; Doreena Thomas, to equal employment specialist, GS–11, EEO, 40916.

Transfers: Christine Ferres, Ser Rec, to library technician, GS–5, CRS ARS, 40917; Claudia Ruoff, GRR, to librarian, GS–9, CMP, 40745.

Resignation: Cherelle McClung, Col Mgmt.

Guidelines Proposed for Retrospective Conversion Of Bibliographic Records of Monographs

The Association of Research Libraries, conducting a three-month study of the feasibility of establishing a program for retrospective conversion of bibliographic records for monographs to machine-readable form, has issued a set of proposed guidelines. The focus of the study, being led by Jutta Reed-Scott, is the first-time conversion of records for significant collections held by research libraries throughout the United States and Canada. If feasibility is demonstrated, the program would vastly improve access to scholarly resources, serve as the basis for resource sharing and cooperative preservation activities, and greatly increase the number of records available for local conversion efforts to support online catalogs and collection management.

The program has two key prerequisites. The first is that there must be access to records on any data base by any library that wishes to use them. The second is that every record, contributed as part of the program, meets or exceeds a set of bibliographic guidelines. These guidelines (based on the second revised draft, released on February 26) are outlined below. They are intended to provide mutually acceptable rules for record fullness and consistency and have been prepared with the objective of achieving a high level of record usefulness at lowest practical conversion cost.

The proposed guidelines consist of three parts. The first defines record fullness, the second outlines the procedure for recording name and subject headings, and the third gives encoding requirements. There is an underlying assumption that all records which are input will conform to network requirements and that conversion will be done from a source record without the book in hand. In some cases network requirements may exceed these guidelines.

Comments on the guidelines may be directed to: Jutta Reed-Scott, RECON Project, Association of Research Libraries, 1527 New Hampshire Ave., N.W., Washington, D.C. 20036.

1. Record Fullness

Any source record that contains the data elements defined as mandatory (M) listed below, or for which the mandatory elements can be readily supplied by the library, is acceptable for retrospective conversion to machine-readable form. When a source record does not contain the mandatory data elements, and those elements cannot be readily supplied, a library may either recatalog the item or elect not to include it as part of the program.

The data elements defined as required (R) must be included if they are present on the source record. In addition, libraries are encouraged to input as full a record as the source record permits and to include all those data on the source record that would be part of a current cataloging record.

Recon Record Data Elements

(M = mandatory; R = required if applicable on the source record)

MARC Field		Recon Guidelines
Leader		
05	Record status	M
06	Type of record	M
07	Bibliographic level	M
17	Encoding level	M
18	Descriptive cataloging form	M
007	Physical description fixed field If the conversion project includes records for microform masters, encoding of the following subfields is mandatory: 00 General materials designation; 01 Specific materials designation; 10 Emulsion; 11 Generation. The 007 field is not mandatory for other monographic records.	
008	Fixed length data elements

Meetings and Events Around the Library

Tuesday, April 2

☐ Meeting of the LC Professional Association's Special Interest Group on Ethnic Resources. Robert Dunn, Asian Division, will speak on Chinese Americans. Room LM 403, 12:10 to 12:40 p.m. **For members and staff.**

☐ Meeting of the LC Professional Association's Special Interest Group on Library Science. Michael H. Shelley, chief, MARC Editorial Division, will speak on "The Creation and Maintenance of MARC Records for LC Databases." Room LM 642, 11:30 to 12 noon. **For members and staff.**

☐ Israeli Poetry with poets Yehuda Amichai, Dan Pagis, Nathan Yonathan, and Karen Alkalay-Gut. Discussion, Whittall Pavillion, 4 p.m. Readings in Hebrew and English translation, Coolidge Auditorium, 8 p.m. No tickets required.

Thursday, April 4

☐ The Juilliard String Quartet. Coolidge Auditorium, 8 p.m. Limit of two tickets per person with a 25-cent service charge per ticket. Tickets available the preceding Monday at Jordan-Kitt's, 1330 G St., N.W. Phone reservations accepted at 393-4463.

Thursday, April 5

☐ The Juilliard String Quartet. Coolidge Auditorium, 8 p.m. For ticket information see April 4 above.

Saturday, April 6

☐ Concert by pianist Jean-Louis Steuerman. Coolidge Auditorium, 5:30 p.m. For tickets call the Music Division 287-5502, no earlier than Monday, April 1, 9:30 a.m.

Tuesday, April 9

☐ Meeting of the LC Professional Association's Special Interest Group for Foreign Area Studies. Moses Pinkston, research analyst for Africa, Federal Research Division, will speak on "South Africa and the Homeland Policy (Transkei)." Room LM 642, 11:30 to 12 noon. **For members and staff.**

The Mary Pickford Theater

For a listing of current free film screenings at the Mary Pickford Theater in the Library's James Madison Building, pick up schedule in LM 338.

Ticket Raffle for Employees

For library employees only, through LCPA, 10 pairs of tickets to music events are raffled, free of charge, on the Friday of the preceding week at 12 noon outside the snack bar on the G level of the Madison Building.

Events are open to the public unless otherwise specified.

Guidelines *(Continued from p. 59)*

2. Headings

Name and Series Headings: Heading (authority) work should be done on a "no conflict" basis according to the following procedures:

It is desirable, but not required, to search the LC Name Authority File to determine if the heading is represented; if so, use the heading found. (The LC Name Authority File includes series authority records.)

If a heading is not represented in the LC Name Authority File, input the heading as it appears on the source record.

Subject Headings: LCSH or MeSH subject headings are required, if applicable and available. It is desirable, but not required, that subject headings be in current forms.

3. Encoding Requirements

The Recon guidelines require full content designation of all fields that are present, including tags, indicators, and subfield codes.

Clarification

The correct title of Mr. Ferenc Havasi, the Hungarian government official whose visit to the Library was mentioned in the March 11, *Library of Congress Information Bulletin,* is secretary of the Central Committee of the Hungarian Socialist Workers' Party and member of the Political Committee.

ISSN 0041-7904 *Key title:* Library of Congress information bulletin
